

Model No.

WS21-17

• Steel wall-mount shelf

Steel wall-mount shelf supports electronics like amplifiers or recorded music systems in educational, commercial and retail applications. Ideal for use where a full-size rack may not be practical.

Construction & Features

- Heavy-duty, one-piece construction
- 16-gauge welded steel
- 21"W x 17"D
- Mounts easily using keyhole slots on 16" centers
- Combination knockouts (0.5"-0.75") along formed top, bottom, and sides for cable management.
- Load capacity 200 lbs. when properly mounted.
- 0.5" front return to help retain equipment
- Smooth black powder epoxy finish
- Made in the USA with 100% certified US steel

A&E Specifications

The wall-mount shall be AVLELEC Model No. WS21-17 which shall have keyhole slots on 16" centers. It shall be welded 16-gauge U.S. steel with a smooth black powder epoxy finish. Wiring shall be accomplished via .5"-.75" combination knockouts on top, bottom, and sides. An integral .5" return shall be provided on the front edge to help retain equipment. The shelf shall support up to 200 lbs. when properly mounted.
