

Model No. **LUH-VRG** **Vandal-resistant Grille**

Cast aluminum grille is designed to protect AVLELEC Unihorn™ (Model No's. LUH-15T or LUH-15Ti) from damage in applications where vandalism and abuse are a concern (eg., schools, correc-tional facilities, transportation terminals, manu-facturing areas, hospitals and distribution centers). Allows clear sound projection while pro-tecting mounted components

Features

- Rugged cast-aluminum with secondary stainless steel barrier screen to prevent pointed objects from causing damage to mounted components
- 8.02" diameter x 0.78"D
- Network Grey powder epoxy finish
- Includes four tamper-resistant, stainless steel 8-32 spanner screws. (Use to mount directly to the 9.6" dia. trim ring that's included with AVLELEC Unihorns).

A & E Specifications

The vandal-resistant grille for AVLELEC Unihorn™ shall be AVLELEC Model No. LUH-VRG, which shall be heavy duty, cast aluminum with a stainless steel barrier screen to protect the horn from dam-age. The round grille shall measure 8.02" dia. with a mounting projection of 0.78". It shall in-clude stainless steel 8-32 spanner screws to mount to the Unihorn's trim ring. The grille shall be finished in Network Grey powder epoxy.
